## Chairman Message

- A dream of many ideas coming together, with great passion and an opportunity seized is how Atheer Towers Communication was born. Our aim at building Atheer Towers Communication was to create an entity independent in all aspects of Telecom. I am proud to be part of an excellent team that struggles on reaching this success and greatness.
- **“Our business is Telecom, IT & Electrical services. Our strength is our people. Our motivation is our pride in our organization and what it has accomplished. Honesty is our foundation, quality and fairness are our goals and caring environment is our core objective”.**
- Commitment to excellence and client satisfaction form the basis of our philosophy. Our theme is quality, integrity, time, efficiency and safety.
- To achieve these principles, we are committed to fulfil our corporate responsibilities, including enhancing our awareness of and conformity with business ethics, and aim to be a reliable and trustworthy company globally.
- I believe in the responsibility of all components of Atheer Towers Communication. and I would like to personally thank you for showing interest in our story. We ask for your continued interest in and support for Atheer Towers Communication.

## MISSION STATEMENT

Our mission is to build our reputation for integrity, excellence, and leadership as one of the finest engineering and contracting organization by: Continuously improving the standards and quality of our services; constantly striving to exceed each client's expectations; Maintaining our dedication to the highest moral principles and; providing a challenging and secure environment for our people.

## INTRODUCTION

Established in 2019, Atheer Towers Communication is Telecom, IT & Electrical services providing company. We completed many projects in Telecom & IT Fields. Atheer Towers Communication is providing wide range of consulting services covering IT, Telecom and Electrical arena. Business analysis, company acquisition, launch of new business or product, outsourcing and network optimization are some of the areas where we can provide assistance to telecom services providers and equipment manufacturers. Our consulting services help to manage cost, improve productivity and increase revenue. We focusing on providing business process outsourcing (BPO solutions to its customers. Our assets are our full time talented staff and access to seasoned, multilingual, best in class professionals. Having worked in Fiber Optical Project in Saudi Arabia, Atheer team members apply objective competence and industry standard tools to mission critical projects, provide end to end outsourcing solutions and deliver unparalleled services. The team can effectively manage the lifecycle of every project to ensure that client needs are successfully met. Atheer Towers Communication has the capability and expertise to provide different telecom services for operators and vendors. Our services range from network inspection to vendor management understanding very well that a well maintained network will require less corrective maintenance and will be easier and more reliable to operate.
